Courseware

Official CIW course books include narrative instruction, technical term definitions, skills objective callouts, hands-on labs, study and assessment questions, review projects and real-world case studies.

Virtual Labs

CIW Virtual Labs provides remote access to the software and files necessary to complete this course. Software is provided in a virtual environment online and includes the following:

- Microsoft Windows Server 2003
- Microsoft Internet Information Services (IIS) v6.0
- ShopFactory V7
- Microsoft SQL Server 2005
- Microsoft SQL Server 2005 Service Pack 2
- Microsoft Visual Studio 2005
- Microsoft Commerce Server 2007
- Microsoft Commerce Server 2007 Service Pack 2
- Microsoft Commerce Server 2007 Starter Site – Release 2

Supplemental Materials

CIW provide supplemental materials, some of which are required for coursework and some of which are optional but of interest for further study, and include:

- Lab files required to complete the course labs
- Handouts
- Answers to exercises and quizzes
- Appendixes with related information

Video Clips

Video clips provide supplementary instruction in a multimedia format, and enhance the CIW course book narrative and labs.

Course Review

Course Review contains a variety of tests that cover each of the lessons in the course and the questions for each test are drawn from a larger pool of questions. Course Review consists of:

- Lesson Reviews - One review for each lesson in the course, consisting of randomly selected questions covering the lesson content. The Reviews allow you to check each answer while taking the test and repeat a test as many times as you like (you will receive a different set of questions each time).
- Lesson Quizzes - One quiz for each lesson in the course, consisting of randomly selected questions covering the lesson content. The Quizzes assess mastery of the lesson material. You may repeat a test as many times as you like (you will receive a different set of questions each time).
- Course Review - A collection of randomly selected questions covering all lessons in the course. The Course Review has no time limit and allows you to check your answer to each question as you go through the test. At the end of the test, you can view each question you answered incorrectly, along with an explanation of the correct answer and the location of the relevant material in the course.
- Course Test - A collection of randomly selected questions covering all lessons in the course. The Course Test is a time-limited test that simulates the experience of the certification exam. At the end of the test, you can view each question you answered incorrectly, along with an explanation of the correct answer and the location of the relevant material in the course.

Online Exercises

The Online Exercises test knowledge of the topics presented in the course and help students prepare for the certification exam. The Exercises are presented in a variety of formats including flash cards, matching exercises, true-false questions, crossword puzzles and fill-in-the-blank exercises.

Exam Study Guide

CIW Exam Study Guides provide focused study for individuals preparing to take CIW certification exams and include:

- Information about taking CIW certification exams
- A table listing CIW exam objectives, including knowledge domains and individual skills objectives
- Enumerated content sections that summarise each skills objective

- Sample exam questions

Practice Exams

The CIW Practice Exams consist of a variety of tests designed to assess the students' knowledge of specific skills objectives. CIW Practice Exams consist of the following:

- Objective Reviews and Quizzes - We provide one Review and one Quiz for each CIW exam objective. Each Review and Quiz consists of a collection of randomly selected questions. The Objective Reviews allow students to check their answers while taking the test.
- Reinforcement Tests - These tests consist of the entire bank of questions. The Reinforcement Tests allow students to check their answers while taking the test. At the end of the test, they can view their performance on each exam objective.
- Self-Assessment Tests - These tests consist of the entire bank of questions. The Self-Assessment Tests assess mastery of the material. At the end of the test, students can view their performance on each objective. They will also receive an e-mail message with this information to enable them to track their progress and concentrate their study on particular sections of each lesson.
- Practice Exams - Each of these time-limited tests consist of a random selection of questions covering all learning objectives. The Practice Exams most closely simulate the experience of taking the certification exam.

Exam Voucher

Exams must be sat at one of the 97 registered Prometric testing centres in the UK. Certification Exam Vouchers are valid for one year from date of purchase.
