- Reinforcement Tests - These tests consist of the entire bank of questions. The Reinforcement Tests allow students to check their answers while taking the test. At the end of the test, they can view their performance on each exam objective.
- Self-Assessment Tests - These tests consist of the entire bank of questions. The Self-Assessment Tests assess mastery of the material. At the end of the test, students can view their performance

on each objective. They will also receive an e-mail message with this information to enable them to track their progress and concentrate their study on particular sections of each lesson.

- Practice Exams - Each of these time-limited tests consist of a random selection of questions covering all learning objectives. The Practice Exams most closely simulate the experience of taking the certification exam.
